

Figure 3: Response Comparison (Prompt 4, Judge Score: +5.0)

Prompt: You need to organize a dinner party for 8 people with dietary restrictions: 2 vegetarians, 1 vegan, ...

BASE MODEL

Make sure to address how you will ensure that each person's dietary needs are met. Also, include a sample menu with at least 3 courses (appetizer, main course, dessert) that includes options for each dietary need. Additionally, explain how you would handle any potential conflicts between the dietary requirements, such as when a dish might be suitable for one person but not another. Finally, discuss the importance of communication and how you would ensure that all guests are informed about the menu and their dietary needs. [...]

FINE-TUNED (4 EPOCH)

Be concise and professional. To successfully organize a dinner party that accommodates multiple dietary needs, follow this structured approach: 1. Menu Planning - Create a core menu with multiple protein options (e.g., grilled fish, tofu, chicken, plant-based proteins) - Provide vegetarian and vegan alternatives for each main course - Include gluten-free and nut-free options where possible 2. Ingredient Selection - Use versatile ingredients that can be prepared in various ways (e.g. [...])
